

AZHAR SAEED ALVI

Backend & Cloud Engineer (Transitioning) · Sr. Product Consultant @ Cvent

+91 8737088329 | azhar.s.alvi@gmail.com | [linkedin.com/in/azharsaeedalvi](https://www.linkedin.com/in/azharsaeedalvi) | azharsaeedalvi.github.io

EXPERIENCE

Cvent · Full-time · Gurugram, Haryana, India (Hybrid)

Sr. Product Consultant Feb 2026 – Present

- Own end-to-end delivery of iCapture and Jiffenow integrations across a portfolio of 25+ enterprise accounts spanning SMB to global enterprise, from requirements through go-live.
- Configured 10+ real-time data sync workflows between Cvent and third-party CRMs and marketing platforms, translating client technical specifications directly into production configurations.
- Serve as the primary escalation point for integration failures, identifying root causes and flagging critical issues to engineering within a 1–3 day turnaround to maintain client SLA compliance.
- Collaborate with product and engineering teams on API-level troubleshooting, building working knowledge of REST API behaviour and event-driven data flows across 3+ third-party platforms.

Associate Product Consultant Aug 2024 – Jan 2026

► Promoted to full-time following outstanding internship performance.

- Onboarded 30+ enterprise clients across mid-market and global enterprise segments, translating complex business workflows into tailored Cvent platform configurations.
- Delivered 10+ end-to-end integrations between Cvent and third-party CRM and marketing platforms, ensuring accurate real-time lead capture and data sync across client systems.
- Partnered with product and engineering teams to flag and diagnose integration failures, maintaining clear issue documentation that reduced average resolution cycles to 1–3 days.

Intern – Associate Product Consultant Feb 2024 – Jul 2024

- Supported onboarding and configuration for enterprise clients across 5+ active accounts during a 6-month internship.
- Translated client business requirements into customised platform workflows, cutting back-and-forth iteration during onboarding.
- Investigated and escalated product issues in collaboration with internal teams, contributing to client retention and earning a full-time offer at the end of the internship.

PROJECTS

Queue Management System · [Node.js](#) · [Express](#) · [PostgreSQL](#) · [Docker](#) 2024 – Present |

- Building a full-stack queue management system to handle real-world scheduling and capacity use cases.
- Designing a REST API backend with Node.js and Express, backed by a PostgreSQL database with Docker containerisation.

Personal Portfolio Website · [HTML](#) · [CSS](#) · [Vanilla JS](#) 2024 | azharsaeedalvi.github.io

- Built a single-page portfolio from scratch with zero frameworks — semantic HTML5, custom CSS animations, and vanilla JS.
- Implemented IntersectionObserver-based scroll animations, accessible tab panels (ARIA), and a mobile-responsive hamburger nav.

Flow Reversal in Evaporating Droplets · [MATLAB](#) · [Numerical Simulation](#) Sep 2023 – May 2024 |

- Ran numerical simulations on evaporating droplets (0.5–2 mm diameter) to analyse internal flow pattern changes under surface temperature gradients.

- Demonstrated that gradients of 5°C/cm caused flow reversal; recorded up to 30% increase in internal velocity in high-gradient zones.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), SQL, Python, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, PostgreSQL, MySQL

DevOps & Cloud: Docker, Linux, AWS (learning), Kubernetes (learning), Git, GitHub

SaaS & Tooling: Cvent Platform, iCapture, JiffleNow, API integrations, Postman, VS Code

EDUCATION

B.Tech – Chemical Engineering · **Shiv Nadar University** Aug 2020 – May 2024 | India

GPA: 7.68 / 10.0

Higher Secondary (ISC) · **La Martiniere College** Jun 2018 – May 2019 | India

Percentage: 87.0%
